**Practice:** My practice is focused on real estate acquisitions and dispositions, finance, commercial leasing and real estate development. My work has ranged from handling the specialized facility needs of bio-tech tenants to the challenges posed by contaminated sites and large construction projects.

**Practice Style:** As Assistant General Counsel at Sabey Corporation I collaborated with a team of talented architects, engineers and construction professionals to find creative and practical ways to turn real estate problems into opportunities. My goal is to help my clients achieve their objectives through careful listening, team-work, responsiveness, creative problem-solving and practical legal solutions.
